

Aventa Learning Courseware

Organization Statement/Pedagogy:

Aventa Learning is a leading provider of K–12 education technology with highly engaging and educationally sound curriculum. Aventa Learning courses are written to national standards and our core courses have been aligned to most state standards. In addition, each of our 22 AP courses has been reviewed and approved by The College Board for the coming year.

Aventa Learning's Online Courses are developed by K-12 subject matter experts, designed by top multimedia teams and delivered by highly qualified high school instructors. Aventa Learning courses have some of the highest outcomes in distance learning. Our classes use a variety of interactive elements to keep students engaged throughout. A deep understanding of K–12 pedagogy, as well as the human factors associated with online technology, is integrated into all disciplines and all phases of Aventa's project work.

Accreditation:

Aventa Learning is accredited by Northwest Association of Accredited Schools (NAAC) and the Distance Education and Training Council (DETC). Aventa's program has also been approved by the National Collegiate Athletic Association (NCAA).
